Educational Qualifications

KLE Technological University, Hubballi

- Bachelor of Engineering in Electronics and communication (2018 - 2022)
70.3%

M.E.S. Chaitanya PU College, Sirsi

- KSEEB P.U.C (2018)
72.1%

St. Anthony High School, Sirsi

- KSEEB SSLC (2016)
91.3%

Skills

- Core-Java, Spring, Spring Boot, Microservices
- Tool: Maven, Git, Junit, Docker, Jenkins, Prometheus, Grafana, Jira
- MySQL (MariaDB), Basics of AWS
- Basics of Data Structures

Projects

Banking system: Project to perform online banking operations related to customer and employee. This is a java microservice project using spring boot and MySQL. Project deployed on AWS as docker image.

Insurance Application: This application serves the purpose of creating and maintaining an insurance policy that allows users to manage insurance, policies and claims.

Dashboard Management system: Develop webpage(dashboard) for South Western Railways which manage data and visualize it using charts. Dashboard connected to database (SQL) to add, delete, modify, filter data.

Achievements

- Representing E&C department during companies' campus visit and showcase project
- Built a banking application as project meeting all benchmark set by organization (Publicis Sapient)
